

Agenda for
Post-Observation Conference Questionnaire (if applicable)
Reflection/Discussion Questions
(Evidence of Domain 4)

The Post-Observation Conference(s) is to be scheduled within 2 working days after the observation(s). The teacher prepares his/her reflections and submits them to the evaluator as evidence. This conference is to take place BEFORE the Summative Assessment is written up.

As I reflect on the lesson, were the learners productively engaged in the work? How do I know?

Were the learning intentions met? What evidence do I have?

Did I depart from anything that I had planned during the instructional time? *(If yes please provide an explanation)*

If I had the opportunity to teach this again, what would I do differently? Why?

Family Log 3:23 and Professional Development Log 3:24 should be submitted as evidence at this time.
