

Girl Engineers & HER Ideas in Motion

AT THE LEE ROAD BRANCH

SCIENCE TECHNOLOGY ENGINEERING ART MATHEMATICS

Tuesday, Sept 12, 6:30 p.m.

Tuesday, Sept 26, 6:30 p.m.

Tuesday, Oct 10, 6:30 p.m.

Tuesday, Oct 24, 6:30 p.m.

Join Girl Engineers and HER Ideas in Motion for our special workshop series! Through hands on workshops, girls learn technical and creative skills from practitioners who work in the fields. Students learn the creative game-making process from theory to project completion to create their own web-based game. Using Scratch, students design and create their own game they can share with their friends. Register today, and join us for this fun and innovative program for girls. For more information please call us at (216) 291-5665.
