The plan establishes procedures to ensure that the District’s communications with persons with disabilities, including applicants, participants, members of the public, and companions with disabilities, are as effective as its communications with others.

Heights High students and families, please take a moment to review the hallway procedures and expectations at Heights High School.

1) Students are expected to be mindful that unnecessary conversation and inconsiderate behavior distract classroom activities and will not be tolerated when in the building. Students are expected to be quick and quiet in the hallways and arrive at their assigned location or destination with as little delay as possible.

2) Students must have a hall pass when leaving a regularly scheduled class, mandatory activity, library, or office. Students should not loiter in the halls, entrances to the building, or other teaching areas during any period of the day, or after school. Students will need to provide their teacher with a pass if they arrive late to an assigned period and need to account for their whereabouts for the portion of the class they missed.

3) Students must use appropriate language and demonstrate appropriate behavior during passing periods.

4) Hall passes are highly discouraged during the first and last 10 minutes of each period of the day to ensure quiet learning environments. Students do not congregate in academic hallways, sit at open supervision tables and desks, or by their lockers when classes are in session.

5) Finally, all litter should be disposed of properly in the provided garbage or recycling receptacles.

### Social Worker’s Corner

March is National Women’s History Month and the theme for the month is “Women who Advocate for Equity, Diversity and Inclusion.”

Women from every background have long realized that an uneven playing field will never bring equality or justice. Countless people feel the critical need to speak up and work harder for fairness in our institutions and social interactions.

During 2024, we recognize the example of women who are committed to embracing everyone — and excluding no one — in our common quest for freedom and opportunity. They know that people change with the help of families, teachers and friends, and that young people in particular need to learn the value of hearing from different voices with different points of view as they grow up.

Today, equity, diversity and inclusion are powerful driving forces that are having a wide-ranging impact on our country. Advocacy is an action of courage. Often advocacy challenges and changes society’s long held assumptions. Throughout 2024, we honor local women from the past and present who have taken the lead to show the importance of change and to establish firmer safeguards, practices and legislation reflecting these values. Following decades of discrimination, we are proud to celebrate women who work for basic inclusion, equality and fairness.

Who are the women in your community or organization that you will honor?
