The District has adopted a plan for communications with persons with disabilities, which is available here. The plan establishes procedures to ensure that the District’s communications with persons with disabilities, including applicants, participants, members of the public, and companions with disabilities, are as effective as its communications with others.

Heights High students and families, please take a moment to review the hallway procedures and expectations at Heights High School.

1) Students are expected to be mindful that unnecessary conversation and inconsiderate behavior distract classroom activities and will not be tolerated when in the building. Students are expected to be quick and quiet in the hallways and arrive at their assigned location or destination with as little delay as possible.

2) Students must have a hall pass when leaving a regularly scheduled class, mandatory activity, library, or office. Students should not loiter in the halls, entrances to the building, or other teaching areas during any period of the day, or after school. Students will need to provide their teacher with a pass if they arrive late to an assigned period and need to account for their whereabouts for the portion of the class they missed.

3) Students must use appropriate language and demonstrate appropriate behavior during passing periods.

4) Hall passes are highly discouraged during the first and last 10 minutes of each period of the day to ensure quiet learning environments. Students do not congregate in academic hallways, sit at open supervision tables and desks, or by their lockers when classes are in session.

5) Finally, all litter should be disposed of properly in the provided garbage or recycling receptacles.
NURSE’S NOTES: “SLEEP - WHY IS MY CHILD TIRED ALL OF THE TIME?”

Sleep is essential for teenagers because it plays an important role in their physical and mental development. Most teens should get between 8 and 10 hours of sleep per night. Unfortunately, research indicates that many teens get far less sleep than they need.

Teens face numerous challenges to getting consistent, restorative sleep. Recognizing those challenges helps teens and their caregivers make a plan so that teens get the sleep they need.

PBIS STUDENT & FAMILY SURVEYS

In CH-UH, part of our mission is to establish and maintain an effective learning environment and positive school climate by implementing behavioral supports needed for all students to achieve social, emotional and academic success. To that end, every year, we conduct a student and parent survey for families to provide input and feedback on current PBIS practices in our school. The responses to the surveys are anonymous. Emails and names are not collected, and the survey only takes a few minutes to complete. Your feedback is used by our school to identify a student and family perception of the implementation of school-wide PBIS.

You can complete the survey using these links:
