PBIS STUDENT & FAMILY SURVEYS

In CH-UH, part of our mission is to establish and maintain an effective learning environment and positive school climate by implementing behavioral supports needed for all students to achieve social, emotional and academic success. To that end, every year, we conduct a student and parent survey for families to provide input and feedback on current PBIS practices in our school. The responses to the surveys are anonymous.

Emails and names are not collected, and the survey only takes a few minutes to complete. Your feedback is used by our school to identify a student and family perception of the implementation of school-wide PBIS.

You can complete the survey using these links:
